Railroad Casualties in 1881

Last year's record of railroad casualties in this country, according to a railroad Journal, compared most unfavorably with the record of preceding years. So far as can be ascertained, there were, during 1881, a total of 1,458 accidents, causing loss of life in 414 cases, and more or less serious injury to 1,597 persons. One reason for the large number of casualties is given as the severity of the weather in the earlier part of 1881. Accidents resulting from collision numbered 536 as against 437 in 1880. Of this number 366 were what are known as "rear" collisions, and were due to the sudden increase in the large number of trains run on many of the roads. Derailments caused accidents in 857 cases. These were divided as follows: Broken rails in 85 cases, loose or spread rails in 29 cases, broken bridges or trestles in 44 cases, broken wheels in 58 cases, broken axles in 50 cases, misplaced switches in 85 cases, cattle on the track in 42 cases, accidental obstructions in 85 cases, and malicious obstruction in 13 cases. In 318 cases there was no explanation to be given for the cause of derailment. These derailment accidents, it is noted, caused the greatest amount of injury to the person the record being 995 cases against 565 due to collision. The latter, however, were more fatal to life, and caused 209 deaths against the 190 which followed derailment accidents. It will be seen from the above list that the misplacement of switches, which ought to be a preventable occurrence if sufficient care and caution were exercised, caused exactly as many accidents as were due to the accidental breaking of track rails. This fact carries its own moral.

Fine Properties.

The Bristol Times of March 11 says the Gilmer & Salisbury Mining Company will put a working force in the Tempest and Iron mines in a few days. There is no doubt about these being fine properties, there being plenty of gold ore in sight. A. J. Blair is acting as Superintendent, and is certainly the right man in the right place. If the ore bodies keep up with the present showing, reduction works will be erected in two months time and Bristol will receive a push in the right direction.

In the debate in the House on the Chinese bill Page briefly explained the bill, and showed that it was framed in accordance with treaty provisions. He proceeded to show very clearly the necessity for its passage by recapitulating the various arguments familiar to the people of the Pacific Coast, and before the close of his remarks he called the especial attention of the Republican party concerning this question, and read, also, what Garfield had said on this subject in his letter of acceptance. He appealed to his fellow Republicans to carry into effect the anti-Chinese resolution of their national platform just as promptly as they had fulfilled the anti-polygamy pledge yesterday. Page spoke with much earnestness, and made a very clear and effective presentation of the main issue involved.

The JOURNAL is very sorry that any voter professing Republicanism is disposed to cavil at the test prescribed by the State Central Committee. It was the intention of the Committee to make the test so liberal that any person who had strayed away after false gods could return to the fold. There never has been a more liberal test submitted in the history of the party. No man who is at all anxious to be a Republican can refuse to subscribe to such a condition precedent for the privilege of participating in the primaries.

A Washington dispatch says James M. Comly, Minister to the Hawaiian Islands, is soon to be recalled. There are half a dozen men who want the place, and they are making a raid on Arthur and Frelinghuysen about it. This is the mission Senator Jones hopes to secure for ex-Congressman Daggett, of Nevada.

In the debate on the Chinese bill Page got in a good one on Hear's town. Said Page: "Protect the port of San Francisco for 20 years, but if you like at the expiration of 10 years open the port of Boston to Chinese immigration."

Charles E. Locke has closed a contract with Oscar Wilde for a series of 20 lectures on the Pacific Coast between March 22d and April 15th. Wilde is to receive \$5,000 and have his expenses paid.

The New York Garfield Club expect soon to secure 10,000 signatures to a petition asking President Arthur to pardon Sargent Mason.

THE COMING CAMPAIGN.

Views of Some of the State Papers Upon the Situation.

REPUBLICAN IN SENTIMENT.

[Carson Appeal.]

The contest for the place of holding the Republican State Convention lay between our city and Reno, resulting in a victory for the latter by a vote of 13 to 12, with the Convention to be held September 4. It was decided to hold the primaries August 19. Now that these preliminaries are settled, all good Republicans should strive by proper attention at the primaries, to put forward a ticket at the Convention that will preserve harmony in the ranks. Let there be no divided house after the 4th of September. It should be the studied purpose of the party to have the next election wipe out the loss of the last. The State is Republican in sentiment, and with harmony in the ranks we are sure to win. There is no United States Senator to be elected by the next Legislature, consequently both parties will be placed for success all the more upon their merit in choosing good men.

LARGELY REPUBLICAN.

[Gold Hill News.]

There is reason to believe that the coming State election will be fought with interest. Every important State office must be filled. The respective political parties will enter the campaign upon their merits, and the election will demonstrate which party has the confidence of the people. It will show that the State of Nevada is largely Republican, and to in a measure atone for having given cause for reproach, the State will give a majority for that ticket which will set all doubt at rest. It will be gratifying to again have a Legislature which will pass measures the people demand, and that will stand the test of constitutionality. It will be an equal source of pride to send a Republican to Congress, and to fill the other offices with men of ability and industry. But this cannot be done with an indifferent campaign. The Democrats recognize the obstacles they must overcome, and will place in nomination the strongest men of their party. This will prove unavailing if the Republicans do the same; but if men of doubtful standing or ability are nominated, the result may be disastrous to the Republican cause.

NEITHER DEAD NOR ASLEEP.

[Virginia Enterprise.]

The Republican party has been, and is, content to bide its time. No premature discussion of the merits of prospective candidates has yet occurred in the public prints. The meeting of the Nevada Republican State Committee in this city was strictly a business gathering of the party managers. Neither the claims of office-seekers nor the pretensions of the adherents of any particular clique were considered or discussed. The meeting of the Committee might have been premature, but its business may as well be transacted at one time as another. The action of the Committee in laying out the preliminary work of the campaign thus early is not without significance in one respect. It is an intimation to the swashbucklers among the Democratic leaders that the Republican party in Nevada is neither dead nor asleep. The harmony which prevailed among the members of the Committee shows that however much factional strife may embitter the councils of the party in other Republican strongholds, there is peace in our own household. Gentlemen were in attendance from all parts of the State, and one and all united in declaring that this cheerful unanimity of feeling exists throughout the State. The offensive distinction of Statworts and Half-Breeds is unknown. In Nevada all are Republicans, and they will present a solid front to the enemy in November.

CARE NECESSARY.

[Carson Tribune.]

It is fair to presume that with the success of two years ago coin of bonanza people will be used to carry the State Democratic. It is reasonable to suppose, with the late decision of the Supreme Court stating the bonanza men in the face, that they will leave no stone unturned to secure the election of a Democratic Supreme Judge, in order to get what they call even on those whom their money could not control. In this we repeat our oft-repeated assertion that politics should not be considered in a judicial election, and that nothing but ability and honesty ought to be looked for as desiderata for the position. But still party must and will be respected, and each party will expect to have the preference given to it by the voters.

We hope and trust to see the status of the Republican party again established, but in order to secure such a result, great, extreme care is needed. The party cannot afford to recognize the political bangers-on, that have in the past controlled its actions, in very many instances merely to betray it. It must ignore the fact that because a man accidentally or otherwise belonged to the Union party twenty years ago he is alone eligible to judicial and other official positions. Such men must be taught that there are times of peace, and that the country, especially our own State, needs men of brain and clear record to manage its affairs.

Rosecrans has been chosen Chairman of the Democratic Congressional Campaign Committee and Chairman of the Executive Committee. Representative Flower was elected a member of the Executive Committee, and he and General Rosecrans were empowered to designate the other five members.

THE HIGH LIFE.

A Free Press Interview Sustained and Its Source Revealed.

[Detroit Free Press.]

A few months ago an interview with a prominent and well known physician, formerly a resident of Detroit, but now living in New York appeared in the columns of this paper. The statements made by the doctor and the facts he divulged were of so unusual a nature as to cause no little commotion among those who read them, and many inquiries were raised as to the genuineness of the interview and the validity of the statements it contained. The name of the physician was at that time suppressed at his own request. The seal of secrecy, however, can now be removed, as the important and interesting letter which appears below will abundantly show. In order, however, that the reader may better understand this letter, a few extracts are herewith given from the interview in question.

After an exchange of courtesies and a few reminiscences about the war, in which the doctor was a prominent surgeon, the reporter remarked upon the doctor's improved appearance, upon which he said:

"Yes, I have improved in health since you last saw me, and I hope, also in many other ways. One thing, however, I have succeeded in doing, and it is one of the hardest things for anyone, and especially a doctor, to do, and that is I have overcome my prejudices. You know there are some people who prefer to remain in the wrong rather than acknowledge the manifest right. Such prejudice leads to bigotry of the worst order. Now, I am a physician, and of the 'old school order, too; but I have, after years of experience and observation, come to the conclusion that truth is the highest of all things, and that if prejudice or bigotry stand in the way of truth, so much the worse for them—they are certain to be crushed sooner or later. Why, when I knew you in Detroit, I would no sooner have thought of violating the code of ethics laid down by the profession, or of prescribing anything out of the regular order, than I would of amputating my hand. Now, however, I prescribe and advise those things which I believe to be adapted to cure, and which my experience has proven to be such."

"How did you come to get such heretical ideas as these, doctor?"

"Oh they are the result of my experience and observation. I obtained my first ideas upon the subject, though, from having been cured after all my care and the skill of my professional brethren had failed to relieve me. Why, I was as badly off as many of my patients, with a complication of troubles, including dyspepsia, and consequently imperfect kidneys and liver, and I feared I should have to give up my practice. For months I suffered untold agonies. Dull, indefinite pains in various parts of the body; a lack of interest in everything around me; a loss of appetite; headaches; all these disagreeable symptoms were added to pains which were both acute and constant. Sick as I was, however, I became restored to health in a most surprising manner and in an incredibly short space of time, and it was this that proved a revelation to me. That was the starting point, and my prejudices faded rapidly after that. I can assure you. I went to reading extensively, and analyzing more extensively, and since that time I have discovered many things of real value to humanity. Why only a few days ago I advised a lady who was suffering from a serious female difficulty and displacement to use the same remedy which cured me. I saw her this morning and she is nearly well; the pain and inflammation are all gone and she is around as usual. We have no right in the medical fraternity to sit back and declare there is no such thing as improvement or advancement, or that we have a monopoly of the remedies which nature has given to mankind. There are great changes going on in every department of life, and there are great developments in medicine as well. Thousands of people die every year from supposed typhoid fever, rheumatism or other complaints, when in reality it is from trichina, caused by eating poorly cooked and diseased pork. Thousands of children are dying every year from dropsy as the apparent sequel to scarlatina, when in reality it is from diseased kidneys which have become weakened by the fever they have just had."

"Well, doctor, you have got some new truths here, certainly, but they sound very reasonable to me."

"Well, whether they are reasonable or not, I have demonstrated to my own satisfaction that they are true, and I propose to stand by them, no matter how much opposition I may raise by doing so. Any man, be he politician, preacher or physician, who so considers of his pocketbook or of his own personal ends as to stultify himself by suppressing the manifest truth, is unworthy the name of man, and unworthy the confidence of the public whom he serves."

The above are some of the principal points in the interview referred to. Now for the sequel. The following outspoken letter from the doctor himself, which has just been received, is published in full:

EDITOR DETROIT FREE PRESS:—Some time ago a reporter of your paper had an interview with me which he said he would like to publish. I consented on condition that you would not mention my name until I gave you permission. I have now accomplished the purpose I had in mind, and wish to say to you (which you can publish or not as you see fit) that I debated for a long time whether I would shake off some of the professional fetters which bound me with others for years, and tell the truth, or not. When I looked back, and thought of the tortures, like those described by Dante in his trip to the infernal region, which I endured from dyspepsia, and recalled how much I would have given at that time for the relief which I have since obtained, I determined that I would take the step so long meditated, and thereby discharge a duty to my fellow men. If I could save one poor mortal one night of the terrible suffering I endured, I would be fully satisfied, be the other consequences what they might.

My dyspeptic condition was produced

by a torpid liver, which did not, as a consequence, remove the bile from the blood. This produced derangement of the stomach, inflammation of its coats, dyspepsia, constipation, headache, depression of spirits, yellow complexion, fat-covered eyes, chills and fever; in short, I was miserable to the last degree. I appealed in vain to my books, to my skill and to my fellow physicians. The mystery of my ill-health grew deeper. I traveled everywhere—exhausted all authorized expedients—but to no purpose!

When in this frame of mind, desperately in need of help, but expecting none, one of my unprofessional friends calls my attention to some unusual cures wrought by a prominent remedy and urged me to try it. I emphatically declined. But secretly, and with the firm determination that I would never let anybody know what I had done, I began its use. It was only an experiment, you know, but for that matter, all medical treatment is experimental. Well, to make a long and surprising story short, I experienced a sort of physical revolution. My skin got a better color. My liver resumed its functions. I no longer had to arouse the bowels with cathartics. My headaches disappeared with my dyspepsia; but still I was not convinced. "Nature did it," I reasoned. But, determined to push the investigation to the extreme, while I was in active work, I tried the effect of the remedy on my patients afflicted with kidney, liver and urinary diseases, watching every development carefully and studiously. Then I was completely disarmed, for the remedy stood every test imposed!

Under such convincing circumstances the matter of confessing my cure became a question of conscience and of duty to humanity. "Here is a remedy," I said, "that has done for me what the best medical skill of the country could not accomplish"—and as an honorable man I will not suppress the facts. I therefore write you and most unhesitatingly assert that for all diseases of the kidneys, liver, stomach or urinary organs which are amenable to treatment, Warner's Safe Kidney and Liver Cure surpasses any remedy I have ever known or used, and since physicians have so much ill-success in the treatment of diseases of these organs, I am prepared to accept all the consequences when I say that they are, if consciences, in duty bound to use this pure vegetable compound in their practice.

Yours very truly,
J. W. SMITH, M. D.
Statements so outspoken as the above and coming from such a reliable source are valuable beyond question. They conclusively show not only the power of the remedy which has become so well known and popular, but the great importance of attention in time to the first indications of declining health. When professional men of such high standing sink their prejudices and willingly declare their belief in that which they know to be valuable, the public may confidently follow their example.

The Newspapers of the World.

According to H. P. Hubbard's "Newspaper and Bank Directory of the World" there are published 34,274 newspapers and periodicals, with a circulation of (in round numbers) 116,000,000 copies, the annual aggregate circulation reaching 10,592,000,000 copies, or about six and one-half papers per year to each inhabitant of the globe. Europe leads with 19,567, and North America follows with 12,400, two together making over nine-tenths of all the publications in existence. Asia has 775; South America, 699; Australasia, 661, and Africa, 132. Of all these, 16,500 are printed in the English language, 7,800 in German, 3,950 in French and over 1,600 in Spanish. There are 4,020 daily newspapers, 18,274 tri-weeklies and weeklies and 8,508 issued less frequently. It appears that while the annual aggregate circulation of publications in the United States is 2,600,000,000, that of Great Britain and Ireland is 2,260,000,000. The work also contains the names of about 20,000 banks and bankers of all countries.

AYER'S CATHARTIC PILLS

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, SURE

Constipation, Jaundice, Dyspepsia, Indigestion, Biliary, Foul Stomach and Breath, Headache, Erysipelas, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetanus, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and purifying the blood, are the most congenial purgative ever perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organs into action; and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most skillful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed, and of great benefits derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

AYER'S CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, AND CONSUMPTION.

The few compositions, which have won the confidence of mankind and become household words, among not only one, but many nations, must have extraordinary virtues. Perhaps no one ever enjoyed so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, that have won for it a confidence in its virtue, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillings, and Mandrake with the iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions on the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone the disorders they produce disappear, such as Ulceration of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive diseases of the Skin, St. Anthony's Fire, Ross or Erysipelas, Pimples, Pustules, Blisters, Boils, Tumors, Tetters and Salt Rheum, Scald Head, Ring-worm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhoea arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility. With their departure health returns.
